

MEET THE FAMILY

Our Structures

An AirClad X Document

AIRCLAD (X)

AirClad is the go-to modular system for creating premium hospitality, marketing, event, and retail spaces.

As a visionary brand, AirClad brings the future of event architecture to your brand and activation now, setting new standards along the way and establishing expectations others may only hope to follow. The AirClad approach to creating adaptable and visually compelling spaces is grounded in their years of experience delivering award-winning events across the globe.

AirClad offers a comprehensive family of products designed with their unique technology for modular construction. These are available off the shelf to rent, lease, and own. Coupled with this, if your project or desire is to push the boundaries, then the AirClad exclusive design studio, Inflate Design, is there to develop, write briefs, and creatively realise any challenge that comes their way.

AirClad is all about circular longevity; even if you have only one event, AirClad structures are designed to last and be reused. By working exclusively with high-performance materials in a modular, analogue way, everything AirClad produces is 100% reusable, with all components capable of being completely disassembled, serviced, repaired, and replaced if needed.

#FASTARCHITECTURE

AirClad by nature is intuitive, fast, and easy to use.

The growing AirClad [Pro] network offers full project management and operations, serving as the backbone for everything AirClad is used for.

AirClad. Made in the Future.

“AirClad challenges the status quo through inspirational, purposeful design; redefining the future of event architecture.”

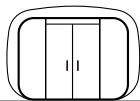

EVENTS

XPO4

Width: 4m **Height:** 3m **Bay:** 2.5m

The XPO is our most popular product offering single height, premium event space. The system is comprised of a structural space frame and floor, wrapped in our pattern-cut AirCells to create uniquely strong monocoque structures. The XPO structures are modular in depth, extending away from the fascia in 2.5m increments.

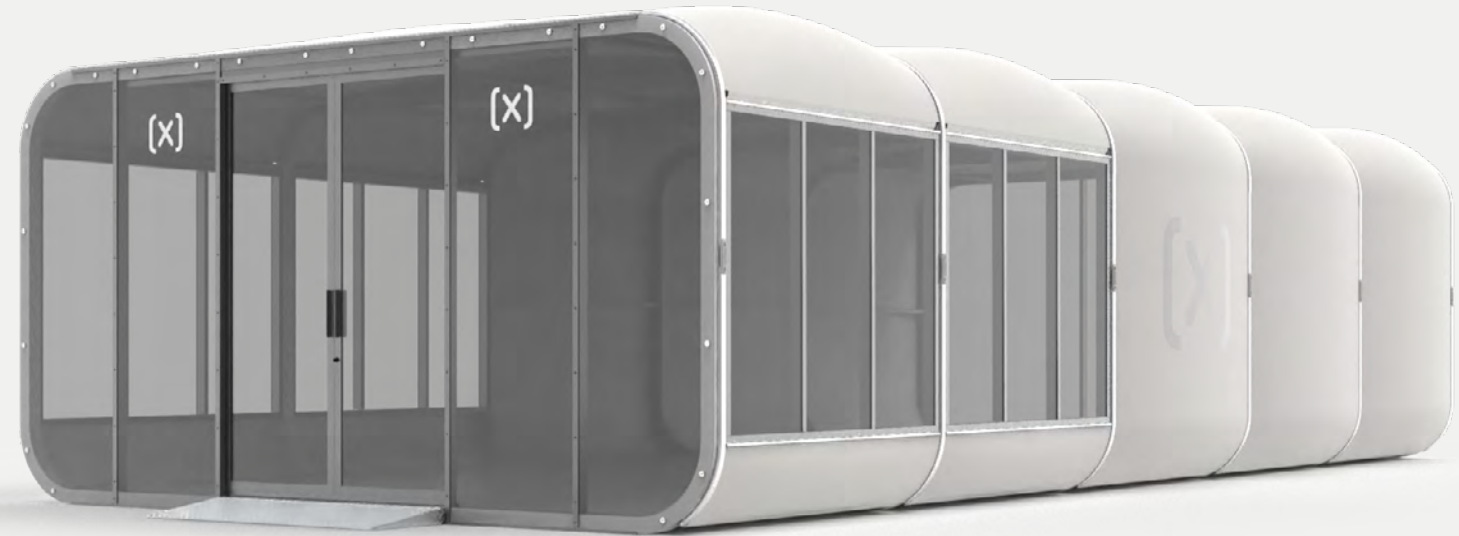

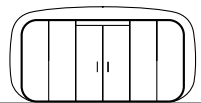

XPO6

Width: 6m **Height:** 3m **Bay:** 2.5m

The XPO6 is one of our most popular single-storey modular system from the Event range. Available in 6m width as standard and configured to the depth you need, the XPO6 delivers unmatched functionality with awe-inspiring results.

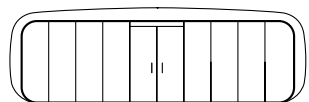

XPO10

Width: 10m **Height:** 3m **Bay:** 2.5m

The ever popular XPO10 from our Expro System is uniquely engineered to deliver premium, consistent, immersive & memorable events for brands and retail. A 3m high, 10m wide single storey pod with 2.5m extending bays. On the XPO10, multiple double-door systems can be used on one fascia.

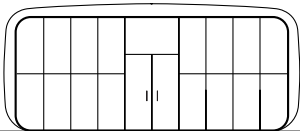

All design rights reserved AirClad Ltd

XPO10 DH4

Width: 10m **Height:** 4m **Bay:** 2.5m

The XPO10 DH4 provides a dynamic visual element and increased vertical space. It's ideal for events requiring a dramatic impact and additional interior volume, such as automotive displays or fashion shows.

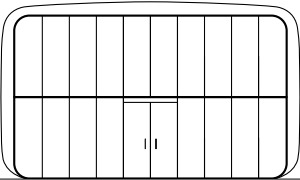

XPO10 DH6

Width: 10m **Height:** 6m **Bay:** 2.5m

The XPO10 DH6 extends the double-height concept further, offering a striking presence with its 6-meter height. This design is perfect for large-scale exhibitions or events that need a commanding and memorable space.

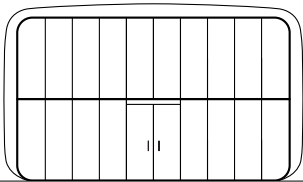

XPO10 DH6

XIP10

Width: 10m **Height:** 6m **Bay:** 2.5m

At its core, the XIP10 is a striking, double height, premium event space with internal mezzanine, offering ample space for creativity, extremely popular with brands looking to make a big impact.

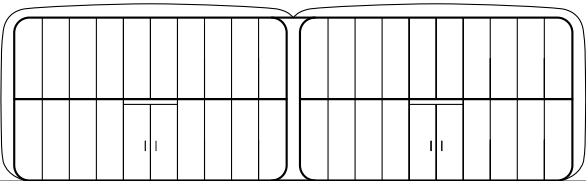

All design rights reserved AirClad Ltd

XIP20

Width: 20m **Height:** 6m **Bay:** 2.5m

Doubling the width of the XIP10, the XIP20 offers a more expansive two-storey space. It's suitable for large-scale events needing significant floor space and vertical volume, providing ample room for branding and interactive installations.

XIP20

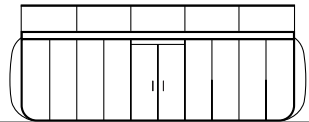

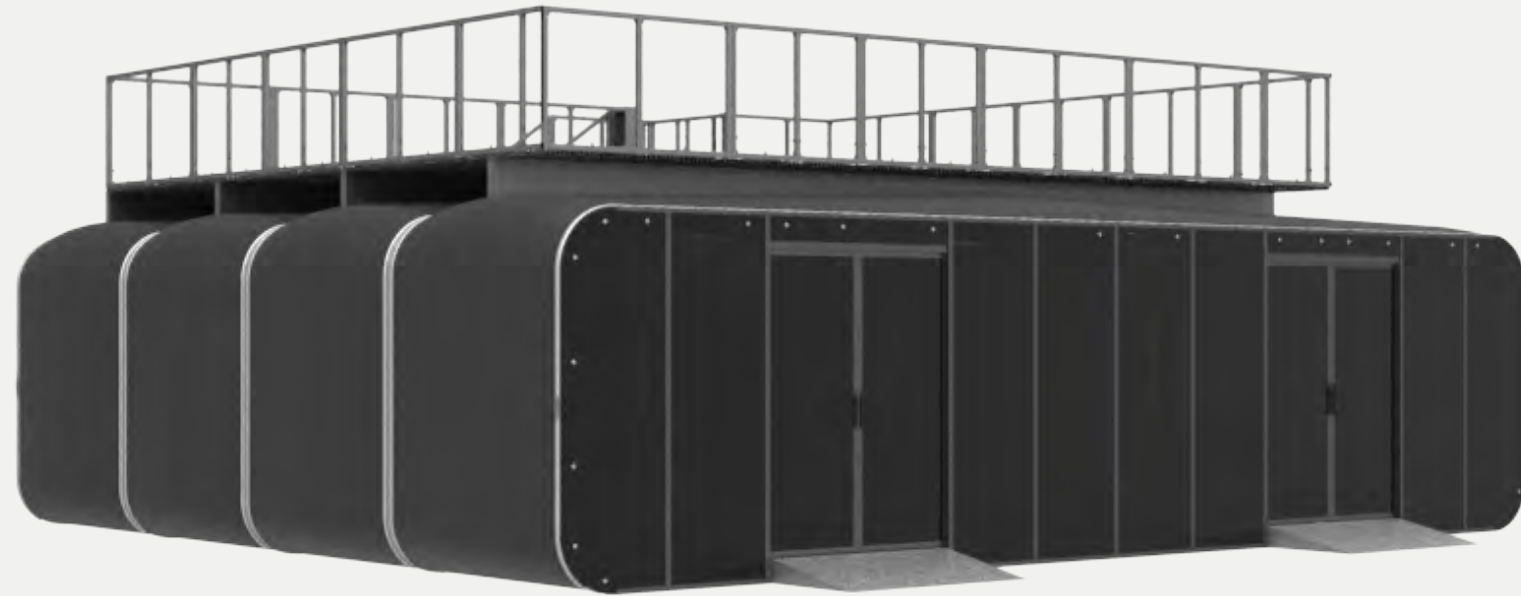

All design rights reserved AirClad Ltd

XDEK10

Width: 10m **Height:** 4m **Bay:** 2.5m

The XDEK platform helps elevate the XPO10 in situations where a premium viewing or display area is required. It's ideal for creating exclusive vantage points at events like sports matches or outdoor concerts.

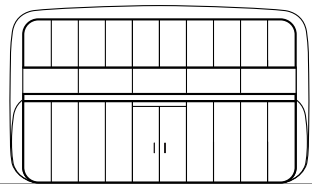

XES

Width: 10m **Height:** 6m **Bay:** 2.5m

The XES, with integrated terrace, delivers an immersive two-storey space inspiring productivity, collaboration, and connection. A 10m wide, double-height structure with internal mezzanine and external terrace. Fully-glazed front and rear fascias, ground floor side windows and interchangeable all-over branding gives the structure the premium feel, with visual and operational impact.

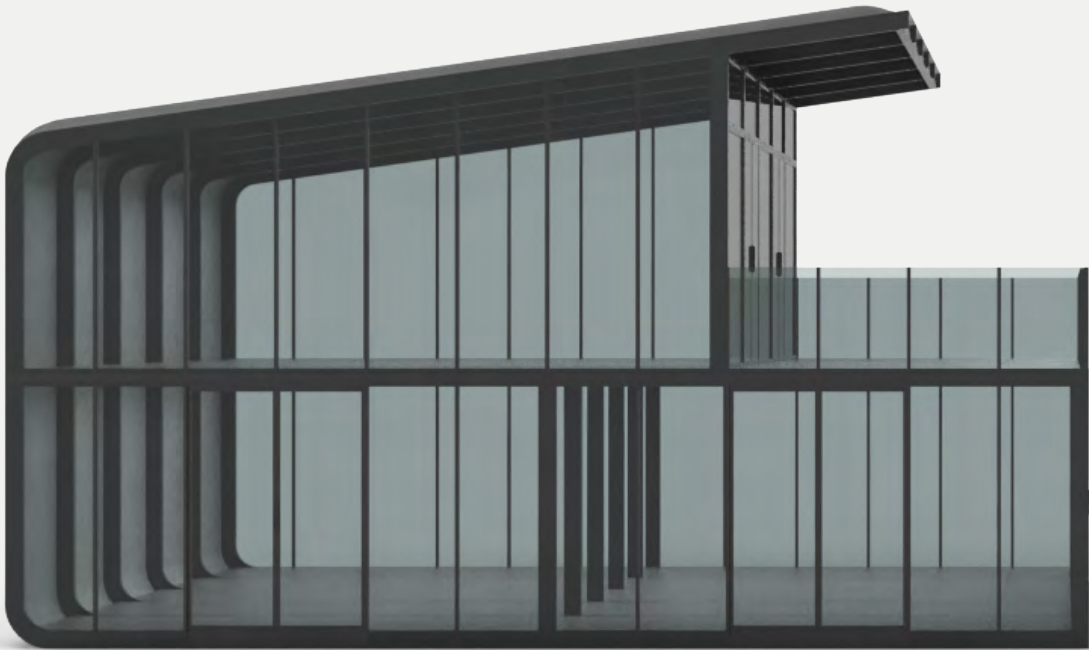

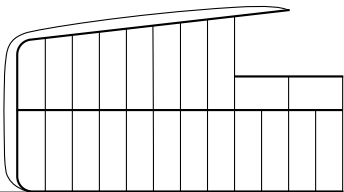

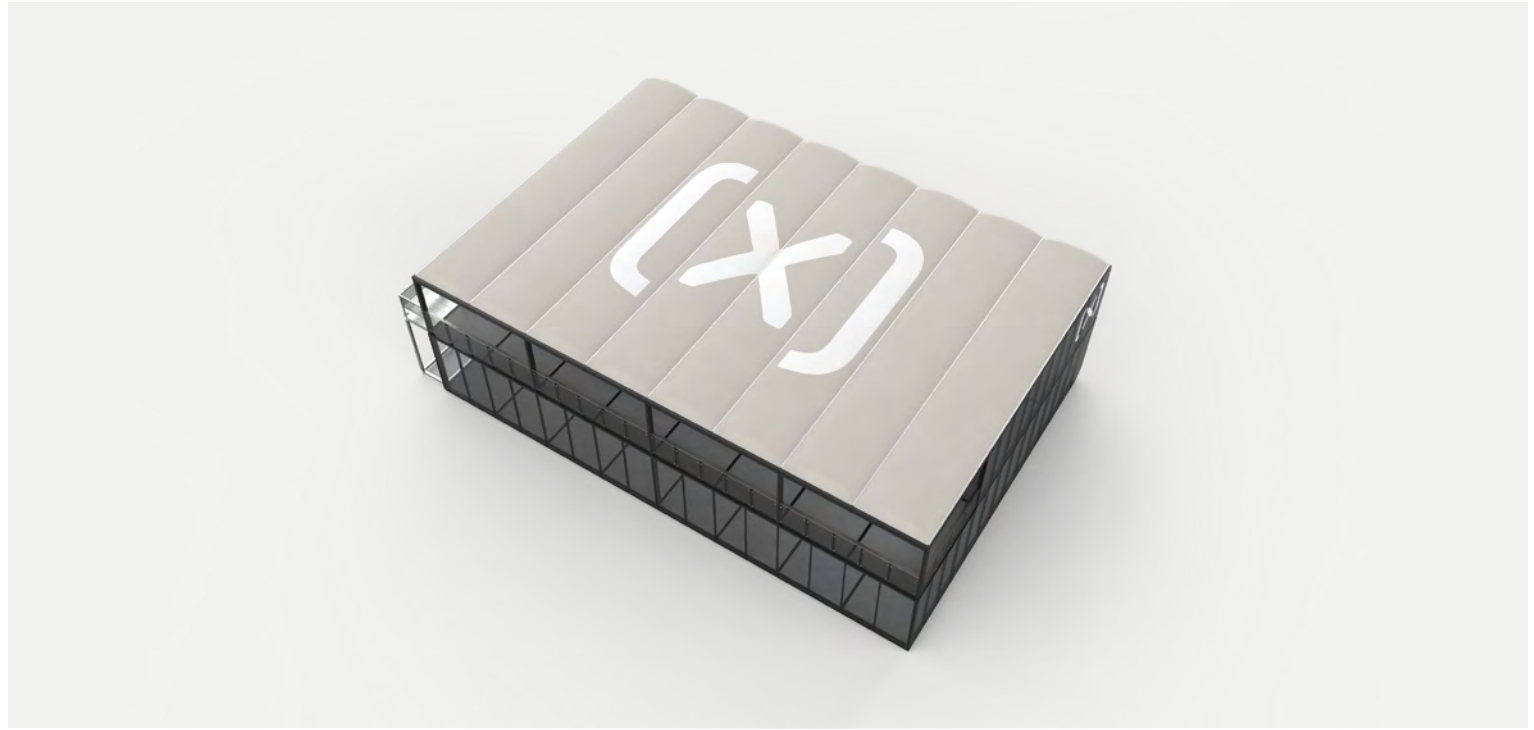

XAPE12

Width: 12m **Height:** 6m **Bay:** 2.5m

An impressive double-height event space that includes an internal mezzanine and an external terrace, ideal for high-profile events where elevated viewing is crucial. This structure features expansive panoramic glazing, offering unparalleled views and creating a luxurious atmosphere.

XAPE12

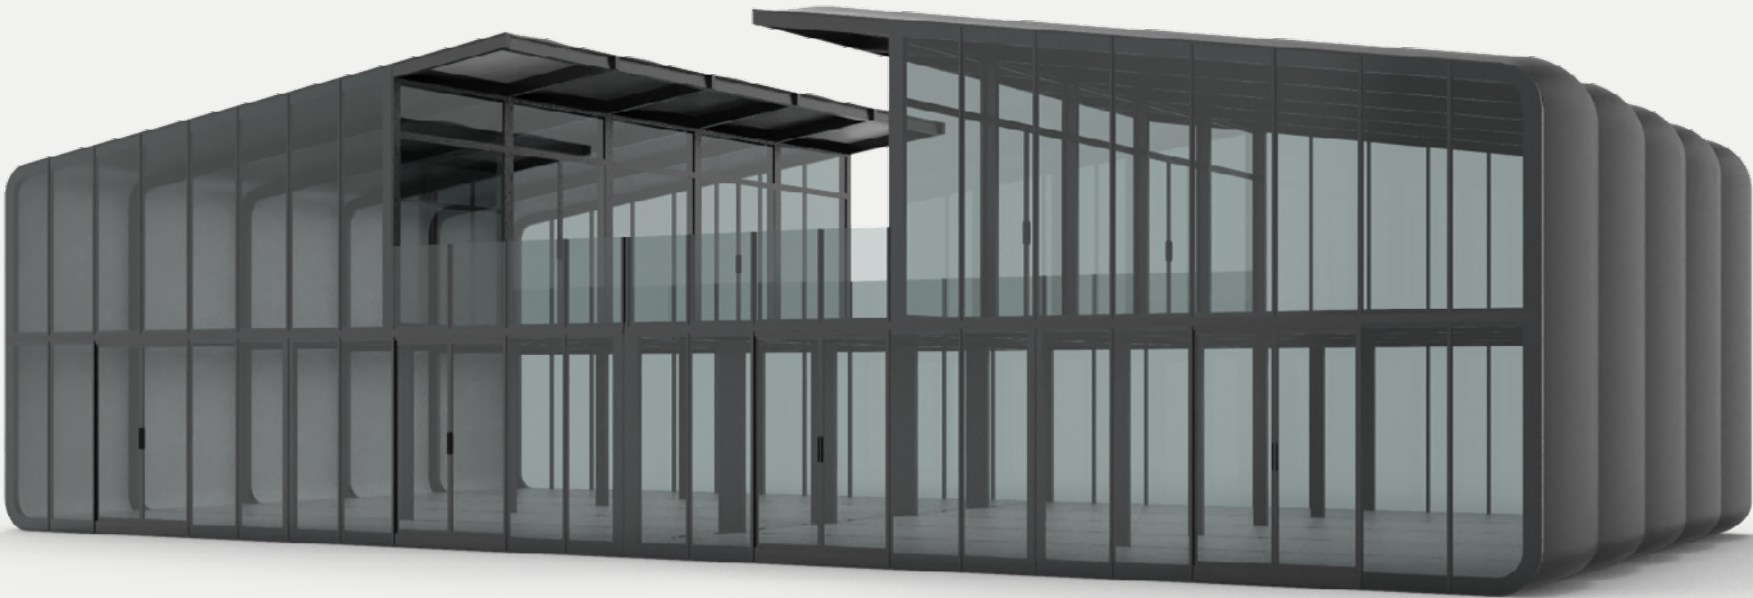

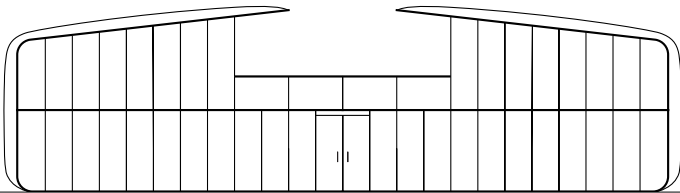

All design rights reserved AirClad Ltd

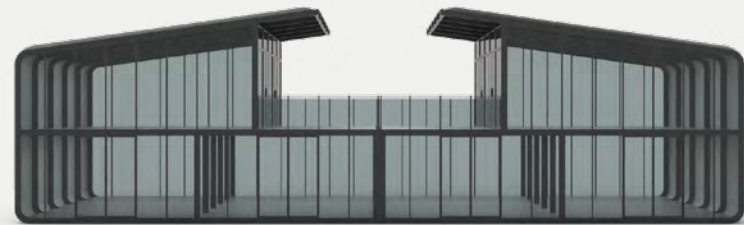

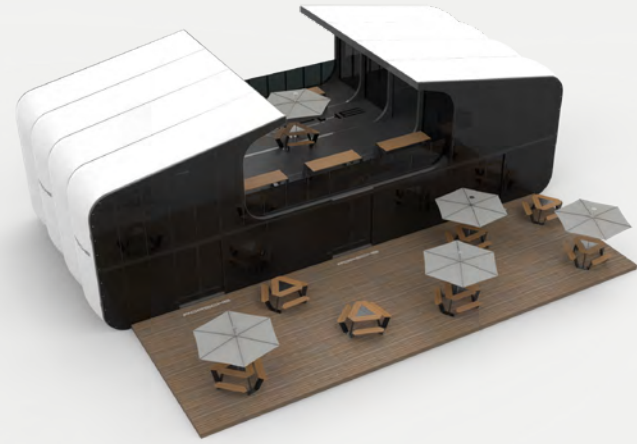

XYX24

Width: 24m **Height:** 6m **Bay:** 2.5m

The XYX24 is an expansive event space formed by combining two XAPE12 units, resulting in a grand, double-height venue. This configuration features a massive central terrace that provides a commanding view, making it ideal for hosting large-scale events that require a significant viewing area, such as sporting events or concerts. The structure's panoramic glazing ensures breathtaking views, while the extensive space offers versatility for any setup.

XYX24

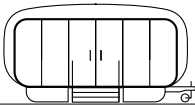

(X)

XTRL

Width: 6m **Height:** 2.6m **Bay:** 2.1m

XTRL is our road-going, trailer-mounted event retail space. Complete with integrated lighting and uniquely designed features for wall-mounted shelves and accessories, the interior space is open-plan and ready for an interior fit out. Ideally suited to touring events where a pre-built solution is required. All you have to do is park it.

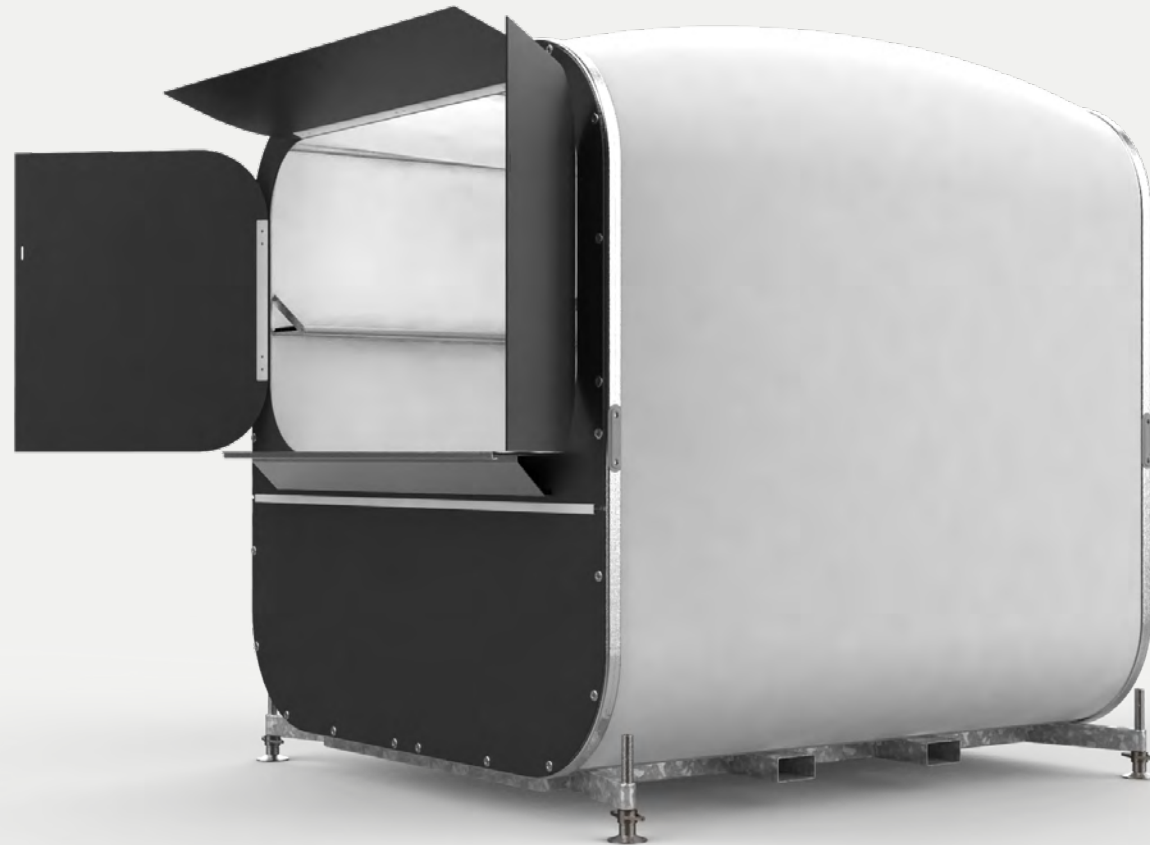

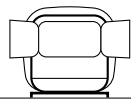

RETAIL

YUMI

Width: 2.4m **Height:** 2.4m **Bay:** 2.4m

The YUMI is a flexible and stylish kiosk solution, perfect for retail or food service. These units offer a compact, easily customizable space that can be tailored to specific brand requirements and set-up and derig in minutes.

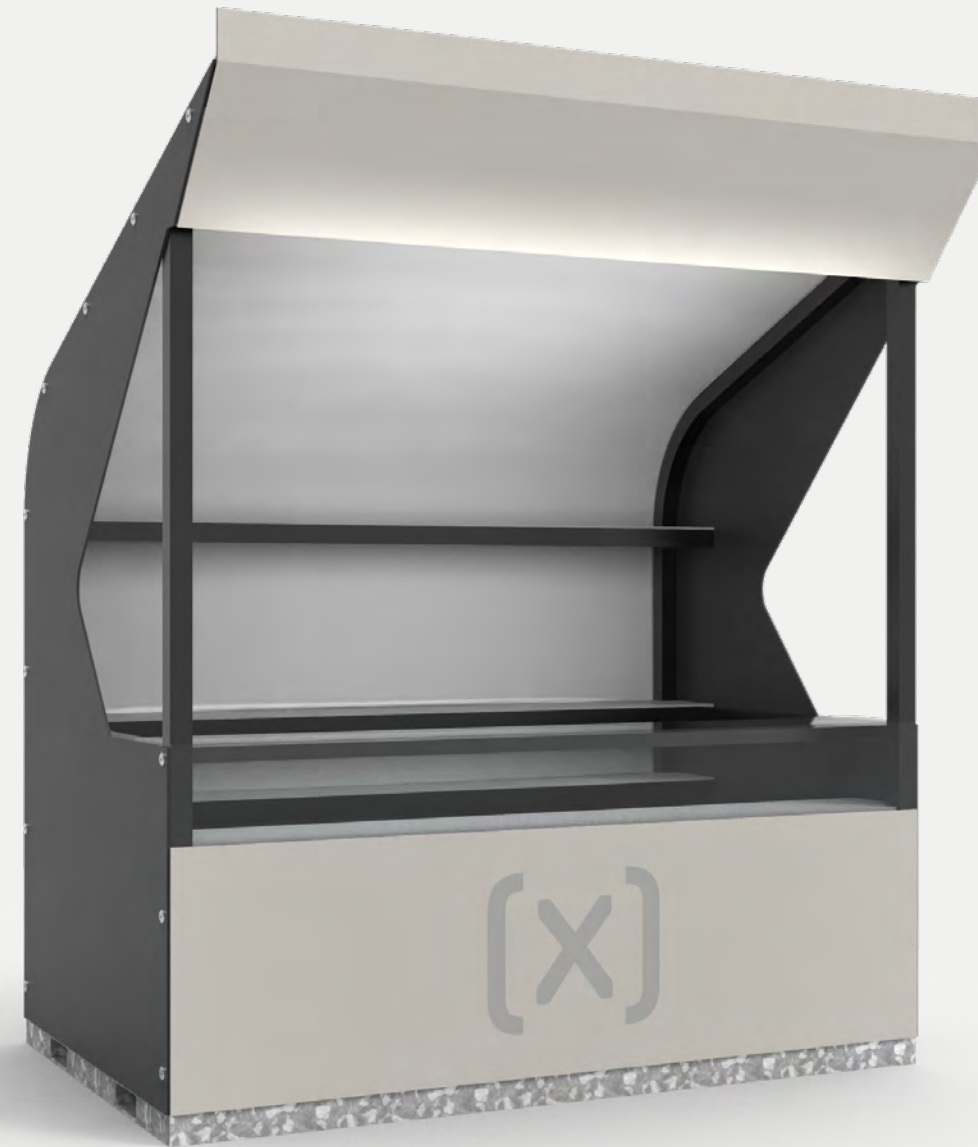

KIOSK

Width: 2.3m **Height:** 2.8m **Bay:** 1.6m

An easy to assemble, pop-up event system, ideal for use as merchandise stores and information points. Using both flat-packed and prebuilt fold-up systems, the KIOSK is capable of being installed in under 10 minutes.

OiO XS

Width: 2.3m **Height:** 2.1m **Bay:** 1.1m

Our smallest member of the family, ideal for use as privacy pods or information points in commercial interiors. This compact unit is meticulously designed with soft fabrics and acoustic materials, providing a comfortable and quiet space for private conversations or focused work. Stylish and functional, the OiO XS makes an excellent choice for enhancing modern office environments or public spaces, where both aesthetics and practicality are essential.
